JOSAM[®]

A **WATTS** Brand

Build with Confidence. Build with Josam.

Documentation

We deliver product compliance certification documentation to simplify the process for federally funded projects. Build confidently with clear and accessible records that support your project needs.

Smart, Eco-Friendly Packaging

Our cast iron drainage products and PRO-PLUS® grates are pre-packaged using protective, biodegradable shrink wrap. This protects products on-site while reducing your environmental impact.

Support for American Jobs

By choosing Josam, you're investing in American industries and communities. Our domestic-compliant drainage products contribute to job creation and economic growth across the United States.

Government Compliance

Josam is committed to supporting American manufacturing and infrastructure. Our products are designed to meet the distinct requirements of federally funded government projects, ensuring smooth procurement processes.

Quality Assurance

Our drainage solutions undergo rigorous quality control to meet the highest standards. Josam drainage products are built to last, offering dependable performance for commercial and industrial applications.

OUR DOMESTIC-COMPLIANT PRODUCT RANGE

Cast Iron Drainage Products

Engineered for strength, durability, and reliability—perfect for commercial or industrial applications.

PRO-PLUS® Trench Drains

Lightweight, Unmatched Strength and less thermal expansion than polymer concrete, polypropylene, and HDPE.

Stainless Steel Drains & Push-Fit Pipe & Fitting Drainage System

Durable, compliant options ideal for your federally funded projects and in full alignment with TAA standards.

Additional Resources to Simplify Your Work

MasterSpec® Documents

Find detailed, industry-standard product specifications to make design and planning easier for your job.
